• WHO ARE WE ?

The family Spiridon believes that all projects and ideas could be materialized. We are convinced that originality and quality are not exclusive and that these are two key elements when designing your interiors. That is why we offer a wide range of lightings and the possibility to produce your own personalized chandeliers.

In addition to the collection displayed, any of our model can be modified upon your request. Helped by young designers, our team supports you for any tailor-made product and will guide you through all the step of the creation. Moreover, we offer to the architects and to our professional partner all the help they are needing to make their project a success.

Constantly looking for a perfect consumer experience, we engage ourselves to require from our workshop a dedicated work. Thanks to an exigent selection of our raw materials, the quality of the artisanal manufacture of our products is guaranteed. Our close relationship with our partners allows us to answer quickly to any of your specific needs.

About ECAILLE...

Lights and colors come together with the ECAILLE family, a incredible range of luminaires all composed of delicate colored glass tiles, suspended or inserted in perfectly regular structures, creating the perfect combination of light and geometric purity.

Discover the only family of products with color tones, and in particular the "Mirror finish" and its exceptional composition, which creates a sparkling and dazzling effect like iridescent scales reflecting all the surrounding rays of light.
