Spiridondeco.com Deco

#### • WHO ARE WE?

The family Spiridon believes that all projects and ideas could be materialized. We are convinced that originality and quality are not exclusive and that these are two key elements when designing your interiors. That is why we offer a wide range of lightings and the possibility to produce your own personalized chandeliers.

In addition to the collection displayed, any of our model can be modified upon your request. Helped by young designers, our team supports you for any taylor-made product and will guide you through all the step of the creation. Moreover, we offer to the architects and to our professional partner all the help they are needing to make their project a success.

Constantly looking for a perfect consumer experience, we engage ourselves to require from our workshop a dedicated work. Thanks to an exigent selection of our raw materials, the quality of the artisanal manufacture of our products is guaranteed. Our close relationship with our partners allows us to answer quickly to any of your specific needs.

## **About PETALE...**

Which better collection among our products than the PETALE family can evoke the richness of floral art ?

As a real homage to the beauty that nature offers, but always in our particular ranges of glass craftsmanship, we have been able to present here the shaping of cut crystals by combining them with the liveliness of raw glass to create budding models, all in elegance and serenity.

The main characteristic of our **PETALE** luminaire family is that it consists of an assembly of a multitude of glass petals or glass crystal, fixed on a nickel-plated metal structure.

Three finishes are available for each model of the **PETALE** family:  ${\bf WB}$  (Petal Clear),  ${\bf WM}$  (Petal Mat) and  ${\bf WT}$  (Cut Clear)
